*The Courier*, 1991 European Community African Caribbean Pacific varies      *Defining Moments* Kimani Njogu, 2011

There is no singular interpretation over the forces that almost brought Kenya to a standstill around the 2007 general elections. The truth about what actually happened will be found in the in between spaces of dialogue and voicing. Somewhere amidst these at times contradictory and at times reaffirming voices can be found glimpses of what the pursuit of political power can do to a people especially in a State where accountability to citizens is of minimal value. The essays in *Defining Moments* capture some of the transformative moments during the crisis that rocked Kenya in 2007-2008 and in its resolution. These reflections by journalists, lawyers, political scientists and cultural workers provide additional perspectives to the relationship between elections, citizenship and violence. This book follows in the footsteps of *Healing the Wound: Personal Narratives about the 2007 Post Election Violence in Kenya* and *Remembering Kenya Vol 1: Identity, Cultural and Freedom We*. We revisit some of the hotspots, the mediation process and ways of ending impunity. This is part of an ongoing work at Twaweza Communications to provide space so that multiple voices can be heard as we seek to build a peaceful and just society. In the process we hope to show that violent conflict can be avoided through structural and behavioural engineering, fix governance, ensure accountability, give credibility to institutions, anchor justice and rule of law.

**Kenya Telephone Directory**, 1994

Entrepreneurship in Micro-enterprises Kenneth R. Gray, 1996. This timely and important work studies Kenya's small scale manufacturers. What makes the book unique is Gray's sub sector approach which focuses on the particular industries of tailoring, woodwork and metalwork. Gray investigates the development of these sub sectors by taking a strategic management approach. Such an approach allows the author to assess enterprise competitiveness and profitability within industries. Readers will find that the information in this book serves as a well needed supplement to the literature on the World Bank's July 1995 decision to focus more on micro enterprise development. The book will appeal to many different audiences including development agencies concerned with the economic development community and the international academic community. Business and social science students who are interested in how work is organized in the family and the effects of modernization on traditional society will also benefit from reading this book.
