Nikon D7000 John Batdorff, 2011-01-10 This book is for anyone upgrading from their Nikon D90 or current DSLR to the highly anticipated Nikon D7000. There's the manual, of course, as well as competing books, and while they all explain, often in 400 pages, what the camera can do, none of them shows exactly how to use the camera to create great images. This book has one goal: to teach D7000 owners how to make great shots using their new Nikon camera. Users learn how to use the D7000 to create the type of photos that inspired them to buy the camera in the first place. Everything in the book is in service of creating a great image. Starting with the top ten things users needed to know about the camera, photographer John Batdorff carefully guides readers through the operating features. Owners get practical advice from a pro on which settings to use, when, great shooting tips and even end of chapter assignments.

The Art of Astrophotography Ian Morison, 2017-02-02 This book provides a step by step guide of how anyone can capture and produce beautiful astronomical images for beginners and professionals alike.

Digital Wildlife Photography John and Barbara Gerlach, 2012-12-20 Using a combination of artistic approach and impeccable technique, professional photographers John and Barbara Gerlach will guide you through the field as you photograph the most intriguing and captivating subjects out in the wild. A sampling of what you'll learn: How to integrate equipment with technique to capture superb wildlife images of birds, mammals, amphibians and more, with an emphasis on precision and speed. Where and how animals can be approached closely enough to photograph well. How not to disturb the critters around you, depending on environment, den vs. tree and everything in between. When and when not to feed the animals. Technical info like cropping, frames per second for capture, pixels enlarging and even HDR. Where to focus on various types of wildlife. Lighting depending on which animals have high contrast.
