Barakumin: A Japanese Minority and Education N. Shimahara, 2012-12-06 This is a profile of people known as Burakumin a Japanese minority group with a history of many centuries The Burakumin is an invisible race which unlike the Negro and other races in America lacks stigma of color or other physical distinctions Not invisible is it otherwise for Burakumin are unlike the majority Japanese in a variety of cultural features historically derivative from discrimination and prejudice which Burakumin have long suffered This study of Burakumin focused on the responses of two compulsory schools to the problems of this minority group Other research foci were integrated into this central concern of the study so as to provide a unified cultural perspective Attention was given to such various aspects of Burakumin culture as historical perspective community life struggles for emancipation organizational activities nature of prejudice and discrimination attitudes and responses of non Burakumin towards Burakumin Education in its broadest sense is an indigenous cultural process by means of which the culture whether literate or non literate can maintain its continuity this process is widely woven into the complex fabric of man's life and his organized activities Education in a formal sense however is institutionalized schooling engaged in cultural transmission and change One of the practical advantages of studying education in an anthropological perspective is to treat it in the matrix of culture as education and culture relate to each other The present study focused its attention upon formal education with only minor attention given to informal aspects

Animal Symbolism Rebecca Murphy, 2025-02-26 *Animal Symbolism* explores the widespread use of animals as symbols in art religion and culture It investigates how these symbols originated evolved and continue to shape our understanding of the world For example the dove's association with peace and the lion's representation of courage are not arbitrary they are rooted in historical and cultural contexts The book reveals how understanding animal symbolism provides insights into human thought belief and artistic expression The book examines specific animals such as serpents birds felines and canines across diverse societies It draws evidence from religious texts folklore and artistic traditions to highlight the cultural significance of these creatures The approach emphasizes the interplay between universal archetypes and culturally specific interpretations The book begins by defining key terms and outlining theoretical approaches then delves into the symbolism of individual animals and concludes with a comparative analysis including case studies in modern contexts

All Tomorrow's Cultures Samuel Gerald Collins, 2008 Short useful and often delightful Science Fiction Studies This book raises some interesting questions about anthropological engagements with the future and opens up provocative and controversial avenues of thought and investigation JRAI Though *All Tomorrow's Cultures* is at its heart a scholarly text its revelations are sure to fascinate not only diligent students of human culture but also anyone with a keen interest in creating or reading literature that imagines the future of humanity Highly recommended especially for college library and anthropology shelves Midwest Review How will we live in the future Are we moving towards global homogeneity Will the world succumb to the global spread of fast food and Hollywood movies Or are there other

possibilities In this book Samuel Collins argues not only for the importance of the future of culture but also stresses its centrality in anthropological thought over the last century Beginning with 19th century anthropology and continuing today in the work of anthropologies of emergent sciences anthropologists have not only used their knowledge of present cultural configurations to speculate on future culture but have also used their assumptions about the future of culture to understand the present
