

VOLVO PENTA MARINE GENSET

D7A TA

142-153 kW (112-130 kW) at 1500 rpm 50 Hz/400V, 155-174 kW (125-132 kW) at 1800 rpm 60 Hz/440V

Volvo Penta Genset System

The Volvo Penta Genset systems are the complete solution for a ship's onboard power requirements. From a company dedicated to the marine industry you not only get reliable marine diesel, well-matched generators and a monitoring system, but also a wide range of other products and services to optimize your investment.

Each Volvo Penta Genset is factory built fully adapted to the customer's requirements and comes complete with engine, generator and monitoring system, all tested and ready for installation onboard. A complete set of documentation will be delivered with the set according to Volvo's high quality publication standard.

Reliable and powerful

The D7A TA is a highly reliable marine Genset. The engine and generator are type approved by all major classification societies and the complete Genset can be delivered with complete classification certificates directly from factory. Well-matched components combined with an injection system and a turbo optimized for Genset applications provides fast response to load variations.

Robust and silent

A rigid in-line cylinder block with generously dimensioned crankshaft bearings, together with water-cooled exhaust manifold and turbo, are just some of the design features making this silent running and steady engine. The owner of a D7A TA not only benefits from many hours of trouble-free operation, but also enjoys improved onboard comfort.

Economical and service friendly

Price is not the only concern when investing in a new Genset. As confirmed by marine professionals, it is the operational costs, such as cost for fuel, spare parts, service and maintenance, that make the real difference in economy.

The D7A TA is equipped with unit pumps that control the fuel distribution for each cylinder. Six-hole, high-pressure injection nozzles optimize the fuel-air mixture. This improved combustion results in high thermal efficiency, low fuel consumption and reduced exhaust emissions.

Easily accessible maintenance points and single side servicing contribute to the ease of servicing the engine. Liners of wet and replaceable type, instead of connecting rod caps and replaceable valve seats make even major maintenance possible to carry out on-board.

Safety supported

Volvo Penta has a well-established, well-trained, network of authorized service dealers in more than 100 countries throughout the world. These service centers offer Genuine Volvo Penta Parts as well as skilled service personnel to help you protect your investment.
