Kiplinger,1998 The Kiplinger Washington Letter America s preeminent business forecasting publication has an unmatched record of accuracy over its 75 years of publication giving its readers early notice of high impact trends in demographics technology and government that would change the way America lives and does business In 1989 when most analysts were warning of a grim decade ahead Kiplinger dissented In America in the Global 90s Knight Kiplinger predicted America would set the world pace for economic success with declining inflation and interest rates soaring exports a shrinking budget deficit and a Dow of at least 6000 by the end of 99 a forecast that

sounded crazy just 18 months after the 87 crash with the Dow a little over 2000 Now Knight Kiplinger broadens his lens to the century ahead Will the 21st century be marked by fierce global competition and falling wages in manufacturing and farming excessive population growth and famine in the developing nations and declining living standards in the U S and other advanced nations Or will accelerating growth in the Third World with the spread of technology the empowerment of women and emergence of an immense new world middle class create unprecedented opportunities for American business Kiplinger makes a persuasive case for the latter scenario with many examples of how it will happen and how U S business can profit Directory of Corporate Affiliations ,2000 Described as Who owns whom the family tree of every major corporation in America the directory is indexed by name parent and subsidiary geographic location Standard Industrial Classification SIC Code and corporate responsibility
