understanding the deeply entrenched causes of instability and identifying the most sustainable paths to peace This meticulously researched account is essential reading for all students researchers and policymakers working on post conflict societies *The Reality of Aid* The Reality of Aid,2008-01-15 This report reveals that recent trends in global aid since 2001 demonstrate the foreign policy priorities of donors in the global war on terror The wars in Afghanistan and Iraq have captured more than a third of the new aid resources allocated by donors since 2001 While recent aid resources have been diverted new aid pledges made in 2005 still fall far short of the urgently needed financing to meet even the minimal Millennium Development Goals In 2007 the international community has an opportunity to replace rhetoric and policy slights of hand with policies and resources that could truly make a difference for a decade devoted to ending global poverty and creating conditions for peace *Conversion Survey 2005* Bonn International Center for Conversion,2005 Despite progress in a number of areas the UN Millennium Development Goals MDGs are unlikely to be met unless major policy changes occur This year s conversion survey advocates new approaches towards states in conflict and governments which fail to provide their citizens with basic security welfare arguing at the same time that high military spending detracts from the agreed goal of increasing overseas development aid Such incontestable links between security and development hover in the background of the survey While much lip service is paid to the interdependence of the two this seldom translates into integrated policies Although the MDGs provide a powerful vision what is still lacking is an added perspective aimed at improving people s security by enhancing conflict prevention post conflict peacebuilding and conversion BICC analyzes global trends and developments over the last year by examining three issue areas arms and resources the conversion related aspects of peacebuilding and the link between natural resources and conflict Three topical chapters subsequently explore certain aspects of conversion in more detail how privatization is increasingly permeating the military sphere options for implementing disarmament demobilization and reintegration especially DDR without camps and two prominent cases of security sector reform SSR Afghanistan and Iraq African Journal of International Affairs & Development ,2017
