Student's Guide to Writing Dissertations and Theses in Tourism Studies and Related Disciplines Tim Coles, David Timothy Duval, Gareth Shaw, 2013-05-02 Around the world every year very many students have to complete dissertations or theses as part of their undergraduate or masters studies in tourism and related subjects Often this substantial piece of self directed work is the culmination of their programmes More than just a means to consolidate their final grades it is also an exciting chance to research a topic of their choosing and a potential gateway to more advanced study as well as job offers and future career paths Yet for all these reasons many students view the dissertation as a tricky challenge This comprehensive book intends to take the stress and anxiety out of doing a dissertation in tourism studies and related disciplines The process is examined from the germination of an idea to the submission and assessment of the final document Written primarily for students conducting independent research for the first time this book offers simple advice and a clear framework which students can adopt even in more advanced studies at masters and doctoral

level This book debunks popular myths and aims to overcome common pitfalls It focuses on the aims and objectives as the DNA of every dissertation Rather than view it as a single overwhelming project the dissertation is presented as a series of more modest manageable yet crucially inter linked tasks that all students can successfully complete through careful preparation and effective time management Dissertations are not to be underestimated and they demand great care and attention but they can also be immensely rewarding and enriching experiences academically and personally This jargon free book is also written with overseas students specifically in mind drawing directly on our overseas students experiences This valuable resource contains start of chapter learning objectives and end of chapter checklists as well as numerous boxed case studies to further help assist students through their dissertation Handbook of Research Methods in Public

Administration, Management and Policy Eran Vigoda-Gadot,Dana R. Vashdi,2020-12-25 This Handbook comprehensively explores research methods in public administration management and policy Exploring the richness of both traditional and contemporary methods and strategies for making progress in the field it provides an advanced toolkit for understanding the science of public administration and management in the 21st century *Current Index to Journals in Education* ,1999
