Contractor ,1918 Remodel My House: How To Do It Right Dwight Chung,2013-07-26 Are you living in an older house
that is in need of a remodel or are you ready to update your house a bit If so you need to have a copy of the book Remodel My
House How To Do It Right This book gives the reader an insight into the world of remodeling and offers the reader advice on
what they ought to have in place before they start the remodeling process The challenge with remodeling is that many
individuals fail to think of everything that they need to do before starting the remodel and end up having massive delays or
end up having to pay more than they had budgeted for at the end of the day It may be that they forgot to get the necessary
permits or that the wrong contractor was hired The book gives an overview of the step by step processes that are involved
Remodeling a home does not have to be stressful With the proper planning and a well organized budget the remodel can be
carried out without a hitch About the Author Dwight Chung was interested in what went into fixing up a home from an early
age He was not just interested in how persons could buy a few things to revamp the look of the property but was also
interested in the entire remodeling process To him it was all pretty simple in his mind for as far as he knew once you have
the money to do it you could just go ahead and get it done Suffice to say that when he got older and had his own home to
remodel he learned that the process involved quite a bit more than that to get things done From the experience that he had
and the challenges that he faced he made the decision to help others to get through that whole process without undue stress
He provides a book that helps the reader to learn how they should approach the remodeling process Once they read Dwight s
book they will be able to make better decisions on how to remodel their home in the long run Journal of the Common
