Promoting the digitalization of small and medium-sized agrifood enterprises in Asia and the Pacific Gálvez

Nogales, E.,Casari, G.,2023-12-11 Small and medium sized enterprises SMEs constitute the large majority of businesses both globally and in Asia and the Pacific Despite their undeniable importance the literature on SMEs in general and agrifood SMEs in particular is relatively limited One specific area that deserves deeper consideration is the extent of digital engagement of agrifood SMEs along the agrifood value chain from farm to retail and food services in countries in Asia and the Pacific The goal of this publication is to understand the current status of digitalization of agri SMEs in Asia and the Pacific what this process looks like and how to improve it A value chain approach was adopted to evaluate the digital maturity of all types of agri SMEs across previously siloed categories from farm to fork and in the core and the extended value chain The report analyses the benefits of digital transformation for agri SMEs and the challenges they face in this process Next the report outlines practical and actionable measures that governments and other stakeholders may undertake to help agrifood SMEs stay ahead in the digital age Special attention is given to the creation of a digital environment that enables agri SMEs to increase the efficiency of their operations and allow them to grow This is particularly important given that many agri SMEs are located in rural agricultural areas where more than half of the population in Asia and the Pacific still resides but where the environment is less favourable to digital transformation

The Risk of Artificial Intelligence in Credit Ratings Daniel Cash,Nataliya Tkachenko,2025-07-12 As the leading credit rating agencies begin to heavily invest in the adoption of artificial intelligence historic systemic failures serve as a reminder of the effect of mis regulation and misdiagnosis in the credit rating world As the industry turns towards technologies that can massively enhance the speed efficiency but also the temptation to transgress within the credit rating world there are critical questions that need to be asked to shape the response that will be needed For regulators and policymakers the multivariant threat that the adoption of artificial intelligence within the credit rating world poses will require an extensive but nuanced response to counter it This book presents these issues reveals intricate implications and provides for a considered response that regulators and policymakers should consider
