(Marks for 1380F and 1380H are each out of 200.)

Grades for GCSE on the Higher tier papers are set by examiners at A, C and D by looking at the work of candidates and using statistical evidence. Once that has been done, the boundaries for grade B are set to be midway between A and C. A\* is then calculated arithmetically so that the boundary for grade A falls midway between those for A\* and B.

The percentages of students gaining each grade is thus set for A to E, but the Ofqual Code of Practice allows us to adjust the overall A\* boundary in the light of statistical evidence to maintain standards over time. The examiners decided that a boundary of 159 would not have given a consistent percentage of A\* grades this year, so it was adjusted to 160 to allow 4.4% of A\* grades.
