misconceived as living at the edge of society however this is often far from the truth Riding a PTW is a high risk activity and
those who ride are often perceived as being risk junkies but through an in depth exploration of this leisure activity
Motorcycling and Leisure explains that riders ride because they enjoy it and do not necessarily enjoy the risk involved The
book presents a range of contemporary research on riders and how they find enjoyment The book further explores the rider
goal of enjoyment and utilises Fuller s task homeostasis theory along with Csikszentmihalyi s theory of flow to develop an
understanding of the interaction between risk and goals In conclusion it develops principles of interventions with the aim of
