

Title: Animal Farm

Author: George Orwell

Introduction:

"Animal Farm" is a political allegory written by George Orwell and published in 1945. The novel takes place on a farm where the animals overthrow their human owner and establish a society governed by their own principles of equality and justice. Through the story of the farm animals, Orwell critiques the corruption and dangers of totalitarianism and explores themes of power, manipulation, and the nature of human society.

Summary:

The animals of Manor Farm, led by the pigs, Major and Snowball, revolt against their human owner, Mr. Jones, who represents the oppressive ruling class. Inspired by Old Major's vision of an egalitarian society, the animals establish Animal Farm, adopting the Seven Commandments of Animalism, with "All animals are equal" as their fundamental principle.

Initially, the farm thrives under the leadership of Snowball and Napoleon, two intelligent and influential pigs. They work to improve the farm, educate the animals, and establish a system of governance. However, as time passes, Napoleon seizes power and pushes Snowball out, establishing himself as the sole leader.

Under Napoleon's rule, the principles of Animalism are gradually manipulated and corrupted. The pigs begin to enjoy special privileges, and the Commandments are altered to suit their interests. Through propaganda, deception, and the use of force, Napoleon consolidates his control and establishes a totalitarian regime, effectively becoming a human-like oppressor.

As the pigs grow more tyrannical, the other animals suffer oppression and mistreatment. The original principles of equality and justice are abandoned, and the farm descends into a state no different from its previous human-run existence. The Commandment "All animals are equal" is revised to "All animals are equal, but some animals are more equal than others," exemplifying the hypocrisy and corruption of the ruling class.
