

# 5 STEPS BOOK PUBLISHING

1

## EDITING

Your manuscript should be professionally edited. Ideally, it would receive four types of edits: developmental, line, copy, and proof.

2

## COVER DESIGN

A graphic designer should create an eye-catching cover with visual elements popular in your book's niche.

3

## FILE CREATION

Exterior and interior files for the e-book and paperback are needed. For the audiobook, square covers and audio files are required.

4

## RETAILER UPLOADS

Your content files need to be uploaded to the platforms you want to sell your book, like Amazon.

5

## MARKETING

Once your book is live on retailer sites, you need to drive traffic to its sales pages so people can learn about it and make a purchase.

know that you need to know all the ins and outs of the process not just the nuts and bolts of the self publishing process itself although that is thoroughly covered as well Once I understood all the ins and outs of this self publishing process once I ironed out all the kinks that the average person will usually face once I figured out where to download all the free programs needed and so on I have since published several of my own books and will continue to do so i have also helped others who never dreamed they could self publish a book put their own editions together So if you can use a computer word processing program there are loads of them available and most work in a similar fashion but I cover only the two most popular Microsoft Works and Microsoft Word in detail this manual and if you have access to the Internet you can follow this step by step guide and self publish your own book for free using just this manual and the print on demand company Create Space So pick up this book read each chapter carefully then follow the detailed step by step instructions to self publish your own book for free
