Boomsday English Edition:

Age and Ageing in Contemporary Speculative and Science Fiction Sarah Falcus, Maricel Oró-Piqueras, 2023-01-12

Focusing on the contemporary period this book brings together critical age studies and contemporary science fiction to establish the centrality of age and ageing in dystopian speculative and science fiction imaginaries. Analysing texts from Europe, North America and South Asia as well as television programmes and films, the contributions range from essays which establish genre-based trends in the representation of age and ageing to very focused studies of particular texts and concerns. As a whole, the volume probes the relationship between speculative science fiction and our understanding of what it is to be a human in time, the time of our own lives and the times of both the past and the future. *Zeitschrift für celtische Philologie*

A psychologically astute, highly original debut, complex, eerie, and utterly believable. Kirkus Reviews Starred Review. This powerful sequel to the A.M. Dellamonica's Sunburst Award-winning contemporary fantasy *Indigo Springs* starts in the small town in Oregon where Astrid Lethewood discovered an underground river of blue liquid Vitagua that is pure magic. Everything it touches is changed. The secret is out, and the world will never be the same. Astrid's best friend Sahara has been corrupted by the blue magic and now leads a cult that seeks to rule the world. Astrid, on the other hand, tries to heal the world. Conflicting ambitions, star-crossed lovers, and those who fear and hate magic combine in a terrible conflagration pitting friend against friend, magic against magic, and the power of nations against a small band of zealots with the fate of the world at stake. *Blue Magic* is a powerful story of private lives changed by
