Borderlines The Shiftings Of Gender In British Romanticism

Gaura Shankar Narayan

Borderlines The Shiftings Of Gender In British Romanticism:

Borderlines Susan J. Wolfson, 2022 Opening with the revolution era debates of the 1790s Borderlines reads Romantic genders across a mobile syntax tuned to such figures as the stylized feminine poetess the aberrant masculine woman male poets deemed feminine or unmanly the campy male effeminate and hapless or strategic cross dressers of both sexes With fresh readings of the works careers and volatile receptions of Mary Wollstonecraft Felicia Hemans M J Jewsbury Lord Byron and John Keats Susan Wolfson shows how senses and sensations of gender shape and get shaped by sign systems that prove arbitrary fluid and susceptible of lively transformation Real and Imagined Women in British Romanticism Gaura Shankar Narayan, 2010 Real and Imagined Women in British Romanticism uses feminist ideology and deconstructive criticism to reconstruct the cultural context embedded in Romantic canonical texts To achieve this end the book undertakes a close textual study of these texts and places them in the intellectual context of Mary Wollstonecraft's critique of culture As a result of intellectual contextuallying as well as theoretical applications the Romantic imagination as represented by William Wordsworth and John Keats emerges as the place where gender division and gender certitude break down This book intervenes in the traditional critical debates about the Romantic imagination to show that the Romantic imagination as set forth in these texts registers the vigorous cultural politics of gender and aesthetics that defined the 1790s and continued to exert influence for decades Book Jacket The Oxford Handbook of British Romanticism David Duff, 2018-09-26 The Oxford Handbook of British Romanticism offers a comprehensive guide to the literature and thought of the Romantic period and an overview of the latest research on this topic Written by a team of international experts the Handbook analyses all aspects of the Romantic movement pinpointing its different historical phases and analysing the intellectual and political currents which shaped them It gives particular attention to devolutionary trends exploring the English Scottish Welsh and Irish strands in British Romanticism and assessing the impact of the constitutional changes that brought into being the United Kingdom at a time of revolutionary turbulence and international conflict It also gives extensive coverage to the publishing and reception history of Romantic writing highlighting the role of readers reviewers publishers and institutions in shaping Romantic literary culture and transmitting its ideas and values Divided into ten sections each containing four or five chapters the Handbook covers key themes and concepts in Romantic studies as well as less chartered topics such as freedom of speech literature and drugs Romantic oratory and literary uses of dialect All the major male and female Romantic authors are included along with numerous lesser known writers the emphasis throughout being on the diversity of Romantic writing and the complexities and internal divisions of the culture that sustained it The volume strikes a balance between familiarity and novelty to provide an accessible guide to current thinking and a conceptual reorganization of this fast moving field

Women, Epic, and Transition in British Romanticism Elisa Beshero-Bondar, 2011-05-31 Women Epic and Transition in British Romanticism argues that early nineteenth century women poets contributed some of the most daring work in

modernizing the epic genre The book examines several long poems to provide perspective on women poets working with and against men in related efforts contributing together to a Romantic movement of large scale genre revision Women poets challenged longstanding categorical approaches to gender and nation in the epic tradition and they raised politically charged questions about women s importance in moments of historical crisis While Romantic epics did not all engage in radical questioning or undermining of authority this study calls attention to some of the more provocative poems in their approach to gender culture and history This study prioritizes long poems written by and about women during the Romantic era and does so in context with influential epics by male contemporaries The book takes its cue from a dramatic increase in the publication of epics in the early nineteenth century At their most innovative Romantic epics provoked questions about the construction of ideological meaning and historical memory and they centralized women s experiences in entirely new ways to reflect on defeat loss and inevitable transition For the first time the epic became an attractive genre for ambitious women poets The book offers a timely response to recent groundbreaking scholarship on nineteenth century epic by Herbert Tucker and Simon Dentith and should be of interest to Romanticists and scholars of 18th and 19th century literature and history gender and genre and women s studies Published by University of Delaware Press Distributed worldwide by Rutgers University Press

The Cambridge Companion to Byron Drummond Bone, 2023-11-16 Deeply informed and appealingly written this revised and updated second edition gives fresh life to the enthralling sexual poetic and political contradictions that make Byron the first literary celebrity Encompassing his entire oeuvre the volume both provides an authoritative guide for students and points to emerging new areas of research highlighting Byron s ongoing relevance in an increasingly complex world both within academia and beyond Published to coincide with the 200th anniversary of his death new chapters cover investigations of Byron s manuscripts his relationships with nonhuman animals his levity and addiction and his Dramas and their reception

Fellow Romantics Beth Lau,2009-01-01 Beginning with the premise that men and women of the Romantic period were lively interlocutors who participated in many of the same literary traditions and experiments Fellow Romantics offers an inspired counterpoint to studies that emphasize differences between male and female Romantic era writers Linking among others Charlotte Smith and William Wordsworth Felicia Hemans and Percy Bysshe Shelley the contributors defamiliarize the work of both male and female writers by drawing our attention to frequently neglected aspects of each writer s art

Material Transgressions Kate Singer, Ashley Cross, Suzanne L. Barnett, 2020 Material Transgressions examines how Romantic era authors explored more capacious ideas of materiality that challenged ideologies of discrete bodies sexed affects and nonhuman things The new materialist processes traced in these essays craft alternative modes of being in the world that create new ways of understanding materiality both in the Romantic period and now The Longman Anthology of British Literature David Damrosch, Kevin J. H. Dettmar, 2006 Nineteenth-century Literature, 2005

Nineteenth-Century Poetry and Literary Celebrity Eric Eisner, 2009-09-16 While artistically ambitious poets of the

era are often characterized as preferring a lasting future fame to contemporary popularity this book reveals that a sophisticated strategic and fascinated engagement with new modes of fame was central to the experiments with literary form of poets such as Byron Keats Shelley and Barrett Browning

ELH., 2007 A journal of English literary history 1934 1955

The Longman Anthology of British Literature ,2010 British Writers Jay Parini,2009 Covers hundreds of writers who have made contributions to British Irish and Commonwealth literature from the 14th century to the present day Introductory essays and chronological tables open each volume and provide historical background Each Supplement covers approximately 20 additional authors Prism(s) ,2002 Engendering Melancholy Nowell Andrew Marshall,2009

Narrative Means, Lyric Ends Monique R. Morgan, 2009 How did nineteenth century poets negotiate the complex interplay between two seemingly antithetical modes lyric and narrative Narrative Means Lyric Ends examines the solutions offered by four canonical long poems William Wordsworth's The Prelude Lord Byron's Don Juan Elizabeth Barrett Browning's Aurora Leigh and Robert Browning's The Ring and the Book Monique Morgan argues that each of these texts uses narrative techniques to create lyrical effects effects that manipulate readers experience of time and shape their intellectual emotional and ethical responses To highlight the productive tension between the modes Morgan defines narrative as essentially temporal and seguential and lyric as creating an illusion of simultaneity. The poems reinforce their larger narrative strategies she suggests with their figurative language Through her readings of these texts Morgan guestions lyric s brevity and associability interrogates retrospection s importance for narrative examines the gendered implications of several genres and determines the dramatic monologue s temporal structure Narrative Means Lyric Ends offers four case studies of the interactions between broad modes and among specific genres changes our aesthetic and ideological assumptions about lyric and narrative expands the domain of narratology and advocates a renewed formalism The Writers Directory 2008 Michelle Kazensky, 2007-06 Features bibliographical biographical and contact information for living authors worldwide who have at least one English publication Entries include name pseudonyms addresses citizenship birth date specialization career Transnational England Monika Class, Terry F. Robinson, 2009 The rise of the modern information and a bibliography English nation coincided with England TM s increased encounters with other peoples both at home and abroad Their cultures and ideas artistic religious political and philosophical contributed in turn to the composition of England TM s own domestic identity Transnational England sheds light on this exchange through a close investigation of the literatures of the time from dramas to novels travel narratives to religious hymns and poetry to prose all of which reveal how connections between England and other world communities 1780 1860 simultaneously fostered and challenged the sovereignty of the English nation and the ideological boundaries that constituted it Featuring essays from distinguished and emergent scholars that will enhance the literary historical and cultural knowledge of England's interaction with European American Eastern and Asian nations during a time of increased travel and vast imperial expansion this volume is valuable reading for academics and

When somebody should go to the books stores, search inauguration by shop, shelf by shelf, it is in point of fact problematic. This is why we offer the ebook compilations in this website.
