For Training Purposes Only

Caveat Emptor

This Study Guide is for training purposes only and does not replace any official publication. Every effort has been made to ensure accuracy, but there is no guarantee and no liability. Always remember that Delta publications have priority over anything here and be sure to compare the date on the Study Guide with the dates on current Delta manuals since it always takes a while to update the Study Guide after the manuals change. Furthermore, be aware this Study Guide doesn't cover everything we need to know to safely operate the airplane. There is plenty in the manuals that isn't covered here. Finally, please remember this Study Guide is a collection of both procedures and techniques, with no distinction between the two. It would be unwise to argue with your instructor or evaluator if he or she tries to show you another way to do something.

Do not download this Study Guide from websites other than www.convectivedigital.com. Other people have created slide shows, eBooks and even executable files from this Study Guide without permission and they may contain malware.

Comments and suggestions are always welcome and please be sure to let me know if you find errors or if the Training Department changes the way we should do things. There's a feedback link on the website.
