Michael Krivyanski, 2015-11-06 Baby Boomers experienced a world growing up that is very different from the one we live in today Some say it s better and some say it s worse We can all agree it s very different These are humor columns about being a Baby Boomer Baby Boomers came of age in a time when there were water fountains instead of hydration stations Our childhood was filled with playing outside When we were forced to stay inside it was tantamount to being punished We spoke to people in person and understood body language There was no cyber world We all had to learn how to deal with reality There were no computer games There were pick up sports based on who had a baseball football basketball or other sports equipment Playing a game depended on if the sports equipment owners were willing to share Card games were played with real cards We camped out without adults went on bike hikes swam in creeks and more Now we re middle age or older Our bodies are changing and the world around us continues to make less and less sense This book is about the many common things experienced by Baby Boomers Just like the song from the group The Who I m Talkin bout my generation Boomers for the Stars Sue Hollister Barr, 2017-04-07 ,

A Contemplative Life Charles F Harrington, 2020-12-12 A compilation of essays poems and letters written over the last few decades and woven together in a narrative that tells the story of a baby boomer s lifetime This book was written as a labor of love detailing a wonderful journey through our often tumultuous times The book begins with some family historical background and continues along the march of time from the wild eyed wonder of youth coming of age in the 70 s and 80 s living the American dream family life loss and sorrows love and romance all the way to the present day perspective of a life lived well and full The book reflects one man s values and details how they came to be and where they have led him In it I hope others can find moments emotions and memories with which to identify along with perhaps an understanding that there has always been much more to our lives than meets the eye The book for the greater part is a political focusing instead on cultural and family life from the 1960 s through the present day all with hints of a private but obvious foundation in faith and optimism The essays poems and letters all draw upon lessons learned some the hard way from parents neighbors friends and most of all experience Some family photos are included both as an illustration of the times and themes and the author s personal story The author grew up in what was then the small Massachusetts town of Franklin then settled in the Quiet Corner of Northeastern Connecticut to raise his own family He lived in each for roughly thirty years and this is a story of those times places and the people who rode along on the journey As the middle child of nine siblings children of a high school

English teacher and a deeply thoughtful if somewhat beleaguered home maker the gift of gab seemed a natural birthright Life in the 1960 s and 70 s in that small bedroom community had a most significant impact Ours is a very different world today from the one we all grew up in some truths do remain others no doubt are sorely missed The importance and influence of those small town values from a different time in America extended through into the development of the author s life as a father himself and to the lives of his children in another small town in Connecticut The world certainly has changed but many of the ideals and principles have survived These writings are the product of a Life of Contemplation a consideration of perhaps a grander scheme to things and at the very least a tale of wonderful adventure that drives home the point offered to the author at ten years old by his father that we can indeed Choose to be happy regardless of the circumstances That advice has been my mantra and my hope is that others can read that in these writings and hopefully find some truth of it in their own lives
