Mainly Abridged from the Latest Edition of the Quarto Dictionary of Noah Webster* Noah Webster,1872      Narratives Across Borders Manju Jaidka,2016-04-26 This volume is centred around the idea that the aim of literature is to build bridges to bring people together and to highlight underlying similarities despite the apparent differences in world literatures As such the book focuses on the moral purpose of literature and its tendency to overcome divisive forces It supports the idea of cosmopolitanism a re working of the ancient Indian ideal of Vasudhaiva Kuttumbakam or the world is my home a concept close to the African notion of ubuntu which refers to an open society as against a small enclosed one and relates to the essence of being human and working for the benefit of a larger community The book uses examples from texts across geographical and cultural borders beginning with classics like the Indian epics the Panchatantra the Kathasaritsagar and the Arabian Nights before moving on to contemporary texts in the age of information technology Although these may originate against diverse backdrops they have a commonality that cannot be denied The stories we tell the tales we love to hear and repeat all share certain features which reach out across boundaries of time and space thus bridging the gap between people and places Living in today s globalized world there is a need to study literature in a broader perspective and to be aware that though stories may be rooted in a particular time and place they are still a part of the world heritage and comprise what is called world literature The book will be of particular interest to scholars studying the art of storytelling as well as the lay reader passionate about literature
