*Windmill Lesson (120 Poems in Indonesian Print Media)* Lasinta Ari Nendra Wibawa,Kinanthi Anggraini,2018-05-17 WINDMILL LESSONS Love you sincerely O wind it s the same as loving friends of the poor and poor because the wall roof is like the most wanted dream when fate forced him to be a captain without a cabin I never cursed the lips that mention the propeller even though life begins with a dizzying wind not a machine that repeatedly fondles bearings or the burning of fossils that now have a foreign face We rely on life from a blow to blow then work to pull the two wheels that intersect like a fertile field with scattered seeds but we regularly water it even though there is no rain We believe that every job start with gradual change then learn from the snail that survives from enemy invasion and threat of starvation We believe that every effort beats from the simplicity that is not in vain then contemplate the fallen tree after being slaughtered rot and then pass on the fungi that decompose because that s how opportunity is born not the fruit of waiting luck but from event to event what was once a normal thing struggling to free you from the dark embrace without ever waking up a bunch of smoke is a very very sacred mission without shouldering any strings attached another day without polluting the baby s soft nose young children and nursing mothers oh no matter how fast persistent we run keep the heart
