Installation Guide

A note concerning the battery inside the transmitter:

Depending on the usage of the transmitter, the battery can last anywhere between 3 to 6 months. When the battery is low, if the transmitter will emit two beeps in a repetitive cycle. At that point you should replace your battery with a new one. That is why we recommend that you keep a spare battery somewhere handy such as the glove compartment.

Notice

The manufacturer will accept no responsibility for any electrical damage resulting from improper installation of the product, be that either damage to the vehicle itself or to the Unit. This Unit must be installed by a certified technician using all safety devices supplied. Please note that this guide has been written for properly trained Autostart technicians; a certain level of skills and knowledge is therefore assumed. Please review the Installation Guide carefully before beginning any work.

Warning

This Remote Car Starter is designed for vehicles with an **automatic** Transmission only. Before installing the Unit, test that the vehicle does not start when the Gear Select Lever is in the "Drive" position. If it starts in gear, install a manual-transmission remote starter system instead.
