tenure in acute care settings has dropped over the past years and many of today's preceptors are new to their roles. Precepting is both an art and a science. This new edition of *Mastering Precepting* provides an evidence-based road map for preceptor development and strategies to avoid preceptor burnout.

Rose O. Sherman EdD RN NEA BC FAAN Professor Emerita, Florida Atlantic University, Editor in Chief, *Nurse Leader*. Once we expected faculty to monitor students for new graduates to figure it out and for a nurse with any experience to transition anywhere needed. Then as we focused on safety and quality, we realized all those individuals needed support of some kind to acquire the new expected competencies of the role in that setting. Once again, that is what Dr. Ulrich and her colleagues have done in the third edition of *Mastering Precepting* with just the right balance of theory and practicality to make this a most useful book.

Patricia S. Yoder-Wise EdD RN NEA BC ANEF FAONL FAAN Professor and Dean Emerita, Texas Tech University Health Sciences Center, Co-Founder and Vice President, The Nurses' Legacy Institute, Editor in Chief, *The Journal of Continuing Education in Nursing*. Preceptors have the power and opportunity to inspire nurses and other healthcare providers to achieve greatness. Effective precepting programs depend on two critical groups: those who organize and manage the programs and those who support, teach, and coach.

Beth Ulrich and her team of expert contributing authors provide the knowledge, tools, skills, and wisdom both groups need for success. Written for staff nurses and other care providers, managers, and educators, this third edition of *Mastering Precepting* teaches preceptors both the science and art of precepting and empowers them to seek the support they need to be effective. For managers, it emphasizes the importance of providing preceptors with positive and supportive experiences. For educators, it provides the information and knowledge required to develop and improve preceptor programs.
