## ANSWER KEY

1. List some species that you observed in the *Creatures of Light* exhibition in the first column. Then record your observations in the column that describes the kind of relationship it has: How do different species use bioluminescence? For what purposes? What kinds of relationships do they form with other species that glow?
2. List some additional species that glow that you observed in the Milstein Hall of Ocean Life. You may also add species that don't glow if you can describe how they interact with bioluminescent species.
