Bridging Science And Policy Implication For Managing Climate Extremes Hong-sang Jung, Bin Wang, 2017-12-19 Since 1980 the number of climate related disasters has been greatly increased globally Scientific consensus based on the IPCC fifth report suggested that global warming would bring more intense and frequent extreme climate events These climate related disasters hinder the achievement of sustainable economic growth and prosperity by disrupting supply chains impeding production destroying infrastructure and necessitating high cost rebuilding and recovery To mitigate the climate extreme risks and possible losses it is essential to maximize the utilization of scientific outputs and to share best practices in disaster risk management Aligned with such purposes Asia Pacific Economic Cooperation APEC Climate Center APCC hosts the APEC Climate Symposium APCS every year APCS focused on drought prediction and management in 2013 climate extremes and hydrological disaster in 2014 and efficient use of climate information for disaster risk management in 2015 This book aims to compile some of the important results from the latest research in climate extreme prediction and services and its application studies with a focus on climate extremes such as typhoons droughts and floods based on the APCS presentations during 2013 2015

Handbook of BRICS and Emerging Economies P. B. Anand, Shailaja Fennell, Flavio Comim, 2021 Ever since Jim O Neill at Goldman Sachs coined the term BRICS in 2001 there have been many different assessments of these major emerging economies with some even proclaiming that the promise of the BRICS comprising Brazil Russia India China and South Africa is over However the so called arranged marriage still seems to be working well with the club having become a formal international forum with summit declarations ministerial meetings and numerous BRICS wide fora Is this euphoria misplaced Is there a BRICS model of economic and human development Are inequalities increasing and is this the denouncement of the economic successes The Handbook of BRICS and Emerging Economies presents a comprehensive and multi faceted analysis of the BRICS countries and other emerging economies exploring their economic social environmental and governance dimensions and other challenges It brings together multi disciplinary perspectives from more than fifty authors to examine how education contributed to the emergence of BRICS how BRICS are impacting African economies and how other emerging economies including Chile Mexico Turkey and others in Africa and Central Asia compare It observes the impact of governance challenges both within individual countries and in the forum for co operation amongst them what issues related to gender and identity based violence are prevalent and what the security implications are and the role of BRICS is in contributing to peace keeping operations

The Global Edge Prof. Alejandro Portes, Ariel C. Armony, 2018-09-11 Over the last quarter century no other city like Miami has rapidly transformed into a global city The Global Edge charts the social tensions and unexpected consequences of this remarkable process of change Acting as a follow up to the highly successful City on the Edge The Global Edge examines Miami in the context of globalization and scrutinizes its newfound place as a major international city Written by two well known scholars in the field the book examines Miami s rise as a finance and

banking center and the simultaneous emergence of a highly diverse but contentious ethnic mosaic The Global Edge serves as a case study of Miami's present cultural economic and political transformation and describes how its future course can provide key lessons for other metropolitan areas throughout the world Climate Change and Cities Cynthia Rosenzweig, William D. Solecki, Patricia Romero-Lankao, Shagun Mehrotra, Shobhakar Dhakal, Somayya Ali Ibrahim, 2018-03-29 Climate Change and Cities bridges science to action for climate change adaptation and mitigation efforts in cities around the world *After the Flood* A. H. Hay, 2016-03-01 When disaster strikes the amount of planning done ahead of time will dictate how quickly a system can recover and return to normal Even the largest and most complex organizations can experience upset and disruption whether by flood fire power failure earthquake or anything else that life can throw at us Resiliency like any other performance measure can be designed into businesses institutions communities cities and even countries This is a book about implementing that planning before it's too late and about learning to pick up and get going after a fall Join Marianne as she explores the world of modern infrastructure technology within the context of a job with real threats exciting opportunities and throbbing headaches With her we learn what resilience means to a city or company how to assess hazards and plan for continuity and how effective system design can reduce the impact of disasters From the basic concepts and terms to how they fit into real systems *After the Flood* is a clear and engaging introduction to resilience planning for students industry practitioners or anyone interested in infrastructure business continuity and emergency and risk management Urban Regeneration and Neoliberalism Clare Kinsella, 2020-10-29 This book explores the concept of home in Liverpool over phases of regeneration following the Second World War Using qualitative research in the oral history tradition it explores what the author conceptualises as forward facing regeneration in the period up to the 1980s and neoliberal regeneration interventions that prioritise the past from the 1980s to the present The author examines how the shift towards city centre focused redevelopment and event led initiatives has implications for the way residents make sense of their conceptualisations of home and demonstrates how the shift in regeneration focus discourse and practice away from Liverpool's neighbourhood districts and towards the city centre has produced changes in the ways that residents identify with neighbourhoods and the city centre with prominence being given to the latter Employing Pierre Bourdieu's concepts of habitus and field as mechanisms for understanding different senses of home and shifts from localised views to globalised views this book will appeal to those with interests in urban sociology regeneration geography sociology home cultures and cities *ESRC Newsletter*, 1985 **The Publishers' Circular and Booksellers' Record**, 1919 The Indian National Bibliography, 2017-10 **British Books**, 1919 *The Publisher*, 1919 **Indian National Bibliography** B. Subcommittee,1972 *Congressional Record* United States. Congress,1974 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 Traditionalism and the Ascendancy of the Malay Ruling Class in Colonial Malaya Donna J. Amoroso,2014 Traditionalism and the Ascendancy of the Malay Ruling Class in Colonial Malaya In this original and perceptive study Donna J Amoroso argues that the Malay elites preeminent position after the Second World War had much to do with how British colonialism reshaped old idioms and rituals helping to re invent a tradition In doing so she illuminates the ways that traditionalism reordered the Malay political world the nature of the state and the political economy of leadership In the postwar era traditionalism began to play a new role it became a weapon which the Malay aristocracy employed to resist British plans for a Malayan Union and to neutralise the challenge coming from groups representing a more radical democratic perspective and even hijacking their themes Leading this conservative struggle was Dato Onn bin Jaafar who not only successfully helped shape Malay opposition to the Malayan Union but was also instrumental in the creation of the United Malays National Organisation UMNO that eventually came to personify an acceptable Malay nationalism Traditionalism and the Ascendancy of the Malay Ruling Class in Colonial Malaya is an important contribution to the history of colonial Malaya and more generally to the history of ideas in late colonial societies Book jacket
