The scale of the city with its population of 15 million can initially be overwhelming but even a short meander into one of Beijing's remaining hutong districts brings you close to the realities of daily life and all of a sudden the city seems human again While the vast number of construction sites flyovers and mirrored skyscrapers can come as a shock to those hoping for a view of the years when Beijing was the emperor s seat a visit to any one of the principal imperial sights the Forbidden City the Temple of Heaven or the Summer Palaces easily remedies this However the greatest of Beijing's if not the world's sights lies north of the city The

Great Wall never ceases to amaze and it s worth spending a couple of days out of the city to fully appreciate its majesty If you have enough time and want more imperial splendor the rugged countryside around the capital holds Ming and Qing tombs while farther afield the Mountain Resort at Chengde was long a popular emperor s haunt and has some wild scenery along with its subdued palaces and grand temples This a highly detailed guide to everything you need to know about Beijing and its surroundings the places to stay the restaurants and what to see and do along with an extensive introductory section on China as a whole The author lives in China and has been a tour guide there full time for close to 10 years This guide is an excerpt from his much larger guide to all of China also published by Hunter which is 650 pages in the print edition Guide to China (Travel Guide eBook) Rough Guides, 2017-06-01 The new fully updated The Rough Guide to China is the definitive guide to this enchanting country one of the world's oldest civilisations From the high tech cities of Hong Kong and Shanghai to minority villages in Yunnan and Buddhist temples of Tibet China's mixture of modernity and ancient traditions never fails to impress With stunning new photography and all the best places to eat sleep party and shop The Rough Guide to China has everything need to ensure you don't miss a thing in this fast changing nation Detailed full colour maps help you find the best spot for Peking duck or navigate Beijing's backstreets Itineraries make planning easy and a Contexts section gives in depth background on China's history and culture as well language tips with handy words and phrases to ease your journey All this combined with detailed coverage of the country's best attractions from voyages down the Yangzi River to hiking the infamous Great Wall makes The Rough Guide to China the essential companion to delve into China s greatest Mega-events and social change Maurice Roche, 2017-06-05 The spectacle of major cultural and sporting treasures events can preoccupy modern societies This book is concerned with contemporary mega events like the Olympics and Expos Using a sociological perspective Roche argues that mega events reflect the major social changes which now influence our societies particularly in the West and that these amount to a new second phase of the modernization process Changes are particularly visible in the media urban and global locational aspects of mega events Thus he suggests that contemporary mega events both in their achievements and their vulnerabilities reflect in the media sphere the rise of the internet in the urban sphere de industrialisation and the growing ecological crisis and in the global sphere the relative decline of the West and the rise of China and other emerging countries Beijing Damian Harper, David Eimer, 2010 Travel guide to Beijing Includes a handy pull out map Chinese script throughout the book and on maps makes navigating Beijing easy Fodor's Beijing & Shanghai, 2005 Research Methodology of the International Festival Josipa Mijoč, 2022-01-14 According to Wilson et al 2017 festivals are events held at a particular point in time repeated in a regular manner and open to the public Festivals differ from special events as they occur on a regular basis whereas a special event is a onetime or infrequently occurring event outside the normal range program or activities of the sponsoring or organising body Getz 1997 Although festival types and themes may differ they have some characteristics in common For instance regardless of the theme of a

festival all of themhave similar stakeholders i e organisations audiences exhibitors sponsors financiers media etc Despite growing research interest in festivals little attention has been put on simultaneous exploration of the key stakeholders of a festival The research and methodological focus of this scientific book is the analysis of the EU China Literary Festival which is conceived as the interaction of European and Chinese authors with the Chinese audience and the promotion of European culture in Chinese metropolises The goal of the Festival is to bring distant cultures closer by means of literature as a medium This book focuses on the analysis of the four festivals organised by the Delegation of the European Union to China the EU China International Literary Festival The Festival has been held twice a year in China since 2017 The audience could follow the Festival related events at the venue n 1 623 or online n 56 621 Online visitors have outnumbered visitors who attended physical events which strongly popularised European Chinese cooperation literature and authors through all levels of communication The aim of this scientific book is to present the process of developing a research methodology and establishing assumptions for its wider application The research methodology measures the views of three stakeholder groups involved in the EU China International Literary Festival n 73 i e 1 Festival visitors 2 European authors international participants and 3 Chinese authors domestic participants In addition the book explores how successfully the EU China International Literary Festival has achieved its goal mission and vision the exchange of ideas and interaction between authors and audiences or dedication to cultural diversity of China and Europe and whether it is possible to successfully measure Festival satisfaction in relation to all groups of respondents Comparison and identification of similarities and differences among the three groups of respondents is one of the research goals This scientific book contributes to the field by increasing the number of tested research instruments that are adequate for determining the attitudes and satisfaction of Festival stakeholders Additionally research contribution is reflected in harmonisation of the methodology used in festival research and in identifying both common and specific dimensions depending on the creative industry sector promoted by the festival in focus for instance literary communication film and other festivals in particular creative industry sectors Analysing the research results statistically significant differences in the expectations and satisfaction with the Festival segments were determined with regard to the role of the respondent examined Greater satisfaction was reported by the authors panel participants and a lower level of satisfaction was observed among visitors to the Festival Based on a large number of media releases and live streamings the Festival can be seen as a highly successful promotional product where the culture in the European Union was presented to Chinese visitors The tested research methodology for researching international festivals can be used by future researchers of festival phenomena for developing an instrument for measuring success of a festival from a multiple stakeholder perspective. The efforts of this research study are ultimately aimed at a systematic increase in the quality of festivals ensuring continued funding and laying the groundwork for related festivals funded by the EU Delegation to China Daily Report ,1995 Event-Cities 4 Bernard Tschumi, Lawrence Hunter, 2010-09-03 Lausanne EPFL
