

NEXT TIME – Regular usage

- Every time you want to manage the machine through the App, first you have to enable the **Smart Touch** mode by turning the knob to the **Smart Touch** indicator.
- Make sure you have unlocked your phone (from stand-by mode) and you have activated the NFC function; then, follow the steps mentioned earlier.
- If you want to start a washing cycle, load the laundry, the detergent and close the door.
- Select the desired function in the App (e.g.: starting a programme, the Smart Check-up cycle, update statistics, etc...).
- Follow the instructions on the phone display, **KEEPING IT ON** the **Smart Touch** logo on the machine dashboard, when requested to do so by the App.

NOTES:

Place your smartphone so that the NFC antenna on its back matches the position of the Smart Touch logo on the appliance (as illustrated below).

If you do not know the position of your NFC antenna, slightly move the smartphone in a circular motion over the Smart Touch logo until the App confirms the connection. In order for the data transfer to be successful, it is essential **TO KEEP THE SMARTPHONE ON THE DASHBOARD DURING THESE THE FEW SECONDS OF THE PROCEDURE**; a message on the device will inform about the correct outcome of the operation and advise you when it is possible to move the smartphone away.

Thick cases or metallic stickers on your smartphone could affect or prevent the transmission of data between machine and telephone. If necessary, remove them.

The replacement of some components of the smartphone (e.g. back cover, battery, etc...) with non-original ones, could result in the NFC antenna removal, preventing the full use of the App.

The management and the control of the machine via App is only possible "by proximity": it is therefore not possible to perform remote operations (e.g.: from another room; outside of the house).
