

The background of the book cover is a high-resolution, false-color micrograph of a silicon microchip die. The die is rectangular and densely packed with intricate circuit patterns. Various regions are highlighted in different colors: bright green for some functional blocks, red for others, and purple and blue for larger peripheral areas. A network of fine, dark lines represents the interconnects between the various functional blocks. The overall appearance is that of a complex, multi-layered circuit board at a microscopic scale.
