

CoaguChek[®] XS System

Getting Started
For Patient
Self-Testing

GETTING STARTED ▶

Follow these steps to get started using the meter:

1. Watch the *CoaguChek XS System Training DVD*. It will help you get comfortable with the CoaguChek XS Meter and the testing procedure.
2. Read the CoaguChek XS Softclix lancet device package insert.
3. With this CoaguChek XS System *Getting Started* guide by the meter, follow the steps to perform your first test.

Then, as necessary, refer to the User Manual or Package Insert:

The *CoaguChek XS System User Manual for Patient Self-Testing* is a comprehensive guide to the meter and test strips. It is designed to provide answers to your questions about the meter's operation and use. Also, see the test strip package insert for more information.

INSTALLING BATTERIES & SETUP ▶

1. Open Compartment

Open the battery compartment on the back of the meter.

2. Insert Batteries

Insert 4 AAA batteries according to the diagram inside the battery compartment.

Right after you insert the batteries, set the date and time.

The date and time settings are important. Each time you run a test, the meter compares its date with the test strip's expiration date. If the test strip is expired, the meter displays an error message and prevents you from running a test.

Whenever you put batteries in the meter, it automatically goes to Setup mode (where you set the date and time). You can also go to Setup mode at any time by pressing the SET button (⏏).

SETTING DATE & TIME ▶

1. Start Setup

To set the date and time, use these buttons: ⏏ to change a setting and ⏏ (SET) to accept a setting.

If the meter is not already in Setup mode, press ⏏.

The date format flashes in the upper right corner.

2. Set Date

Press ⏏. The year flashes.

⏏ to change the year then ⏏.

⏏ to change the month then ⏏.

⏏ to change the day then ⏏.

The time format flashes in the upper left corner.

3. Set Time

Press ⏏. The hour flashes.

⏏ to change the hour then ⏏.

⏏ to change the minutes then ⏏.

Power the meter off ⏏.

4. Check Display

Press and hold the ON-OFF button ⏏.

Make sure all the letters, numbers, and symbols on the display appear correctly.

Review *The Meter's Display* section in the *User Manual* to review the full display.

Release ⏏.

Power the meter off ⏏.

PREPARING FOR A TEST ▶

1. Gather Items

- CoaguChek XS Meter
- Container of test strips
- Test strip code chip
- CoaguChek XS Softclix lancet device and white lancet

2. Match Code

The code number on the test strip container and the code chip must match.

Each box of test strips comes with a matching code chip. Every time you open a new box of test strips, you must replace the code chip.

3. Insert Code Chip

Make sure the meter is off.

With the code number facing up, insert the code chip into the code chip slot until it snaps into place.

4. Prepare Lancet Device

Pull the cap off the lancet device. Insert a new white lancet. Twist off the lancet's protective cap. Put the cap back on the lancet device. Line up the notches for the cap to fit.

TESTING ▶

Before continuing, review these tips for getting a good drop of blood.

Increasing the blood flow in your finger will help you get a good drop of blood:

- Warm your hand. Hold it under your arm, use a hand warmer, and/or wash with warm water.
- Let your arm hang by your side.
- Massage your finger from its base.

Use these techniques until your fingertip has good color.

1. Wash Hands

Wash your hands in warm, soapy water.

Make sure your fingertip is thoroughly dry.

2. Get Ready

Take a test strip out of the container.

Close the container tightly.

Note: You have 10 minutes to use a test strip once you remove it from the container.
