Export Promotion Loren Yager, 2011-04 Since the recent recession policymakers have emphasized the role exports can play in strengthening the U S economy and in creating higher paying jobs In March 2010 the President signed an Executive Order creating the National Export Initiative NEI with a goal of doubling U S exports in 5 years However since 2004 the workforce of the U S and Foreign Commercial Service CS has shrunk calling into question the ability of this key agency to increase its activities to assist U S businesses with their exports This report reviewed 1 how well CS managed its resources from 2004 to 2009 and 2 the completeness of CS's workforce plans and the quality of its fiscal year 2011 budget request Tables This is a print on demand publication

Policy guide to improve water productivity in small-scale agriculture Food and Agriculture Organization of the United Nations, 2020-05-01 In developing countries further progress of irrigation is essential for increasing food security and farmers income However developing small scale schemes remains a challenge due to multiple factors that must be taken into consideration such as diversity of small scale schemes a large number of water users social disharmony over the water use varying water demands

of multi cropping systems heterogeneity of equipment over the scheme Furthermore on farm irrigation development has a major role in enhancing Agricultural Water Management AWM The previous development methods considered the improvement of single factor productivity but agriculture is undergoing a global shift from the single objective of outputs such as yield or net income to multiple objectives of increasing outputs while conserving natural resources Many pathways towards enhancement of Water Productivity WP are directly related to improving overall farm agronomic management irrigation fertilization plant density plant protection etc while external measures must be applied to ensure sustainability of introduced good practices lack of input markets scarce knowledge poor infrastructures water regulations etc Thus introducing irrigation practices to farmers must undergo a step wise process to ensure that costs do not outweigh achievable benefits and both institutional and technical environment are capable to sustain results This is the case in smallholders schemes where farmers are poorly resourced In order to address these issues the current policy guide presents a combined methodology which involves practical experiences drawn from FAO work in the three countries as well as researchers results to line up a set of feasible measures to improving WP
