Technology and Assessment National Research Council, Division of Behavioral and Social Sciences and Education, Center for Education, Board on Testing and Assessment, 2002-04-26 The papers in this collection were commissioned by the Board on Testing and Assessment BOTA of the National Research Council NRC for a workshop held on November 14 2001 with support from the William and Flora Hewlett Foundation Goals for the workshop were twofold One was to share the major messages of the recently released NRC committee report Knowing What Students Know The Science and Design of Educational Assessment 2001 which synthesizes advances in the cognitive sciences and methods of measurement and considers their implications for improving educational assessment The second goal was to delve more deeply into one of the major themes of that report the role that technology could play in bringing those advances together which is the focus of these papers For the workshop selected researchers working in the intersection of technology and assessment were asked to write about some of the challenges and opportunities for more fully capitalizing on the power of information technologies to improve assessment to illustrate those issues with examples from their own research and to identify priorities for research and development in this area

Artificial Intelligence in Education R. Luckin, K.R. Koedinger, J. Greer, 2007-06-29 The nature of technology has changed since Artificial Intelligence in Education AIED was conceptualised as a research community and Interactive Learning Environments were initially developed Technology is smaller more mobile networked pervasive and often ubiquitous as well as being provided by the standard desktop PC This creates the potential for technology supported learning wherever and whenever learners need and want it However in order to take advantage of this potential for greater flexibility we need to understand and model learners and the contexts with which they interact in a manner that enables us to design deploy and evaluate technology to most effectively support learning across multiple locations subjects and times The AIED community has much to contribute to this endeavour This publication contains papers posters and tutorials from the 2007 Artificial Intelligence in Education conference in Los Angeles CA USA

Using Games and Simulations for Teaching and Assessment Harold F. O'Neil, Eva L. Baker, Ray S. Perez, 2016-03-31 Using Games and Simulations for Teaching and Assessment Key Issues comprises a multidisciplinary investigation into the issues that arise when using games and simulations for educational purposes Using both theoretical and empirical analyses this collection examines cognitive motivational and psychometric issues with a focus on STEM content Unlike other research based volumes that focus solely on game design or the theoretical basis behind gaming this book unites previously disparate communities of researchers from civilian to military contexts as well as multiple disciplines to critically explore current problems and illustrate how instructionally effective games and simulations should be planned and evaluated While computer based simulations and games have the potential to improve the quality of education and training Using Games and Simulations for Teaching and Assessment Key Issues shows how the science of learning should underlie the use of such technologies Through a wide

ranging yet detailed examination chapter authors provide suggestions for designing and developing games simulations and intelligent tutoring systems that are scientifically based outcomes driven and cost conscious Intelligent Tutoring Systems Vincent Aleven, Judy Kay, Jack Mostow, 2010-05-29 The 10th International Conference on Intelligent Tutoring Systems ITS 2010 continued the bi annual series of top flight international conferences on the use of advanced educational technologies that are adaptive to users or groups of users These highly interdisciplinary conferences bring together researchers in the learning sciences computer science cognitive or educational psychology cognitive science artificial intelligence machine learning and linguistics The theme of the ITS 2010 conference was Bridges to Learning a theme that connects the scientific content of the conference and the geography of Pittsburgh the host city The conference addressed the use of advanced technologies as bridges for learners and facilitators of robust learning outcomes We received a total of 186 submissions from 26 countries on 5 continents Australia Brazil Canada China Estonia France Georgia Germany Greece India Italy Japan Korea Mexico The Netherlands New Zealand Pakistan Philippines Saudi Arabia Singapore Slovakia Spain Thailand Turkey the UK and USA We accepted 61 full papers 38% and 58 short papers The diversity of the field is reflected in the range of topics represented by the papers submitted selected by the authors Carnegie Institution of Washington Publication ,1920
