

SAFETY RULES CONT'D

When transporting the machine, make use of the safety seats, if available, such as the 120" model. Always follow the rotating hoists. Use these safety devices at the work site as well.

Maintenance

Always lower the bucket loader, bucket loader or other attached attachment to the ground before performing any service operation. If the service being performed requires the bucket or other attached attachment to be raised, check that attachment is down first. See Figure 1.

Never grease, oil or perform any maintenance with the engine running unless so instructed in the operator's or service manual. If a bucket must be raised in order to perform the operation, check the bucket to place first.

Never operate the controls unless properly seated in the operator's seat.

Check the parking brake frequently to make sure it is operating properly.

Remember this--the man in the operator's seat is responsible for the safe operation of this machine.

NOTE 1: Seats followed by an asterisk (*) can be purchased from your Authorized Case Dealer.

NOTE 2: A set of 100 cylinder steps can be fabricated from channel iron. Use the dimensions shown in Figure 1.
